

## Results Quisioner Workload Students Active Year Academic 2020/2021

### A. Background

workload related to work or load credits are awarded lecturer to students, whether already in accordance with the portions or allowed. the team in faculty conduct a survey to answer question. This questionnaire is addressed to active students of the Faculty of Mathematics and Natural Science Year 2020/2021.

### B. Questionnaire Results

Based on the questionnaire that has been given to students, the results show that more than 80% of students stated the workload is appropriate. it selected from categories quite satisfied – very satisfied with the workload. Below the graphics of the total questionnaire:
