International Orientation

S

Sensible Leader and Decision Maker

E

Effective Health Communicator and Educator

Research Facilities

The Bachelor Degree of Pharmacy Study Program has many facilities for research for example: Drug Information Center, Herbal Medicine Study Center, Nanopharmacy Research Center, and Drug, Food, and Cosmetics Testing Laboratory, certified to ISO 17025 by the National Accreditation Committee (KAN) and a Mini Teaching Hospital.

Description

The International Program Bachelor Degree of Pharmacy Study Program (IP-BDPSP) Universitas Islam Indonesia (UII) was established with the aim of producing Islamic and qualified undergraduate pharmaceutical graduates (S.Farm) to improve health services with international orientation.

The IP-BDPSP has set its vision to realize a Bachelor of Pharmacy with excellence in the development of drug preparations derived from natural ingredients and promotion of rational use of drugs. To support the competitiveness of graduates, IP-BDPSP runs a Student Center Learning (SCL) learning system with various learning methods.

Vision

To realize the bachelor of pharmacy with excellence in the development of drug preparations derived from natural ingredient and the promotion of rational use of drug.

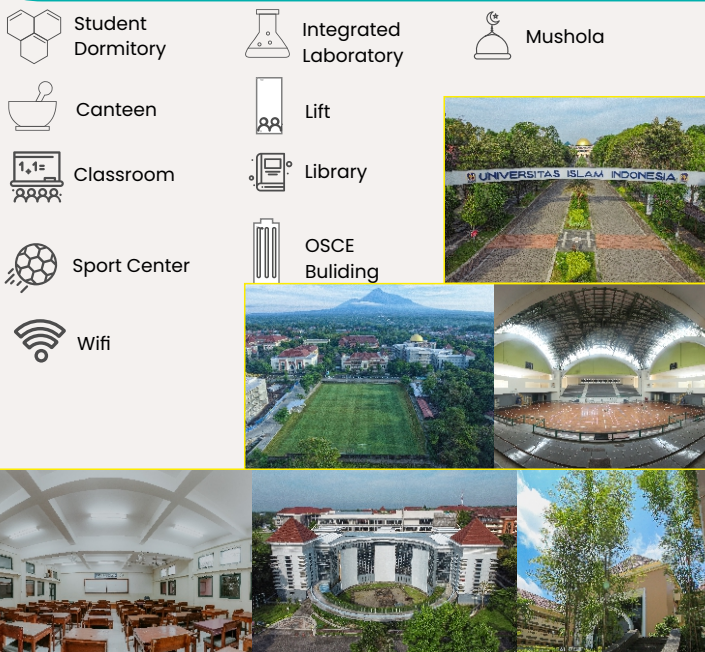

Mision

1. To implement a quality education process in accordance with the demands of national standards to produce competent pharmacy graduates and prospective pharmacists.
2. To develop research in the pharmaceutical and medical fields with applicable result to improve the quality of the learning process and contribute to solving pharmaceutical and medical problems in the community
3. To instill the academic community with noble character to form a person who serves as the mercy for the universe (Rahmatan Lil'alamin)

Acreditation

The Bachelor Degree of Pharmacy Study Program (BDPSP) has attained a rating of "A" (excellent) from the Indonesian Accreditation Agency for higher Higher Education in Health (LAM-PTKes) and Accreditation Agency for Study Program in Engineering, Informatics, Natural Sciences, and Mathematics (ASIN).

Campus Facilities

Laboratory

1. MTH (Mini Teaching Hospital)
2. Nano Fabrication Research Center
3. Pharmaceutical Technology Laboratory
4. Pharmaceutical Chemistry Laboratory
5. Pharmaceutical Biologgy Laboratory
6. Pharmacology Laboratory
7. Drug, Food, and Cosmetic Testing Laboratory
8. Medical Plant Garden Lab
9. Practical Pharmacy Laboratory
10. Laboratory of Pharmaceutical Microbiology
11. Bioteknology Laboratory
12. Research Laboratory

Partnership

The Bachelor Degree of Pharmacy Study Program has very good cooperation with domestic and foreign institution, including the Halal Science Center Thailand, Rangsit University Thailand, IIUM Malaysia, and University of Rhode USA, as well as various health facility institutions showing the implementation of education, research, community service, and islamic da'wah.
